EDUCATION

Vellore Institute Of Technology

Bachelor of Technology in Computer Science and Engineering

Aug. 2022 – Apr 2026

Current CGPA: 7.88

EXPERIENCE

Product Management Intern

October 2024 – December 2024

Arrise Solutions India Pvt. Ltd.

Noida, UP

- Partnered with engineering and design across India + Romania teams to define, prioritize, and ship 3+ features in production; documented user stories reducing eng - QA back-and-forth by 30%.
- Conducted hands-on QA and functional testing of the company's WFM product; sat with developers, learned the corporate delivery pipeline, and triaged 10+ pre-release issues — shipping with zero P1 bugs.
- Owned end-to-end product definition for a role-based authentication system — flow mapping, stakeholder sign-off, and launch — achieving zero post-launch auth failures.
- Built ArriBot full-stack during internship using Spring Boot + React.js (JS, CSS, HTML), implementing JWT auth, MongoDB, and dual-LLM integration (Groq + Gemini).

PROJECTS

Empowerly | Spring Boot, MongoDB, Docker | Live Link: Empowerly

January 2025 – February 2025

- Engineered a full-stack HR platform using Spring Boot and React.js, covering 15+ core modules — attendance tracking, leave management, payroll automation, performance reviews, and real-time employee collaboration.
- Shipped WebSocket real-time chat and WebRTC peer-to-peer video meetings, keeping workflows within the platform and eliminating reliance on external tools.
- Integrated Groq AI for an HR chatbot answering policy queries 24/7, personalized skill development recommendations, and automated performance insights generation with strengths/gap analysis.
- Authored PRD with competitive analysis (vs. Workday, BambooHR, Zoho), defined 3 personas, designed RBAC flows; shipped 15+ features across attendance, leave, payroll, and performance review epics.

ArriBot | Java, SpringBoot, REST APIs, MongoDB | Live Link: ArriBot

October 2024 – December 2024

- Identified learners context-switch across 5+ tools; scoped 5 integrated AI modules (chat, flashcards, quiz, summariser, resume analyser) into one platform — authored full PRD, MoSCoW, OKRs, and GTM strategy.
- Implemented a two-layer AI governance system: per-minute rate limiting and per-feature daily usage caps, with real-time token consumption tracking displayed on a live dashboard.
- Built full-stack: BCrypt + OTP (Brevo) + JWT auth, PDF resume analysis via Apache PDFBox, structured JSON skill-gap output rendered as animated dashboard.

ASTraMind | FastAPI, Python, REST APIs, MongoDB | Live Link: ASTraMind

November 2025 – December 2025

- Authored full PRD and shipped an AI platform enabling natural-language querying of entire GitHub repositories via AST parsing + vector embeddings + LLM RAG — reducing estimated onboarding time by 50%.
- Delivered 15 AI modules (semantic search, security scanner, architecture map, pair programmer, and more) — 102 story points across 4 sprints in 14 days solo.
- Fixed critical production OOM: replaced PyTorch (1.5 GB) with FastEmbed (150 MB); migrated Supabase → Neon Postgres to eliminate PgBouncer/asyncpg conflicts.

TECHNICAL SKILLS

Programming Languages: Java, Python, SQL, JavaScript, Kotlin, C++

AI & Machine Learning: LLMs, Generative AI, Prompt Engineering, RAG, AI Agents, NLP Fundamentals, Model Integration, Vector Embeddings

Backend, Cloud & Tools: Spring Boot, FastAPI, RESTful APIs, Microservices, JWT, WebSocket, WebRTC, React.js, HTML/CSS, Docker, Git, Render, Vercel, Qdrant, ChromaDB, Postman, Swagger

Databases: MySQL, PostgreSQL, MongoDB

Core Competencies: PRD Writing, Roadmapping, MoSCoW Prioritisation, User Stories, Sprint Planning, OKRs, Stakeholder Management, Competitive Analysis, Go-to-Market, A/B Testing, DSA, OOP, API Design, Scalability, SDLC, Agile

Certifications: NPTEL Cloud Computing – IIT Madras | Oracle OCI DevOps Professional | Johns Hopkins Health Hackathon – Top Team
